A close-up photograph of a person in a business suit sitting at a desk. They are pointing their right index finger at a document that features a bar chart. The person's left hand is holding a pen. The background is softly blurred, showing what appears to be a computer monitor and other office equipment. The overall lighting is warm and professional.

About the Course

About Equity Research and Financial Modeling

The e-Learn Programme on Equity Research and Financial Modeling (ERFM) offers a comprehensive understanding of financial analysis and aims to equip candidates with an extensive knowledge in the area of Equity Research and Financial Modeling. It also enables the participants to gain relevant skills to build financial models, by analyzing financial statements.

This programme will help participants to enhance their knowledge in the area of Equity Research and Financial Modeling as per the industry requirements.

e-Learn

A hand is shown dropping a coin into a stack of coins. The stack is growing from left to right, with the tallest stack on the right. The background is blurred, and the lighting is soft, creating a sense of focus on the coins and the hand.

Programme Delivery

The entire programme on Equity Research and Financial Modeling will be delivered through the e-Learn computer-based training. This mode of study is self-paced and the content is delivered via the internet.

Benefits of e-CLASS
