

Learn to diversify your investments with Commodity Markets.

————— Introducing —————
Gateway to Commodities Trading

Gateway to Commodities Trading:

The Gateway to Commodities Trading programme is designed to meet the ever-growing requirements and needs of those who are interested in learning about the commodity markets in depth. The commodity markets in India, along with the exchange-traded commodity derivatives have witnessed substantial growth over the past 4-5 years and are expected to grow further in the coming years. Commodity markets offer challenging and exciting opportunities for all the market participants i.e. corporates, exporters, importers or traders for hedging and managing their risks.

- **Objective:** This programme will explain you the basics of commodities like crude, gold, silver, copper, etc. and its associated commodity pricing. You can learn common terminologies, important aspects of commodity markets, related derivatives and financing structures.
- **Ideal for:** This interactive programme is tailored for:
 - Traders and organisations dealing in commodities such as agricultural products, metals or oil
 - Employees of commodity brokerage houses
 - Investors, students and finance professionals
 - Anyone who is interested in understanding the commodity markets

Programme Benefits:

Post-completion of this programme, participants would be able to:

- Develop a sound and updated understanding of the commodity markets
- Understand global and domestic commodity exchanges
- Recognise the process of hedging and trading on major commodities exchange like MCX, NCDEX and other regional exchanges
- Theory and practical application of commodities trading strategies
