## Expect gradual recovery ahead...

**About the stock:** Sonata Software (Sonata) provides IT services and product licensing services to its clients in BFSI, HLS (Healthcare & Lifesciences), R&M (Retail & Manufacturing) and TMT (Technology, Media and Telecom) segments.

Q1FY26 Performance: International IT services (IITS) revenue came at US\$ 81.8 mn, down 0.9% QoQ/ 2.4% YoY in CC terms. IITS EBITDA margin at 16.6%, was up ~10 bps QoQ. Consol revenue came at US\$ 346.5 mn, up 15% QoQ with EBITDA margin of 5.4%, down ~120 bps QoQ. PAT stood at ₹109.3 crore, up 1.7% QoQ.

### **Investment Rationale**

- Strong large deal momentum amid macro and client-specific headwinds: Sonata displayed strong execution by securing 3 large deals worth US\$136 mn across TMT, Healthcare, and Tech verticals. Growth was led by the ramp-up of a US\$73 mn TMT deal and continued strength in HLS, which grew 15% and 17.4% QoQ, respectively, driving a healthy book-to-bill ratio of 1.28x. However, BFSI (-12.5% QoQ) and Retail (-3% QoQ) remained soft due to budget cuts at 2 key clients (1 each in BFSI & Hi-tech) & near-term risks from Microsoft's evolving GTM strategy favoring direct enterprise engagement with large enterprises. Despite these challenges, management remains confident of achieving positive IITS revenue growth & top quartile growth overall in FY26, supported by US\$105 mn in deal wins and a diversified pipeline of 30 large deals. We have baked in IT services growth CAGR of 7% over FY25-27E in US\$ terms.
- Margins likely to improve: IITS EBITDA margin improved by ~10bps QoQ to 16.6%, with management targeting ~20% by FY26-end, driven by better utilization, pyramid rationalization, & increased offshoring. While overall margins contracted ~120 bps QoQ to 5.4% due to weak domestic performance & unfavorable mix, the company's commitment to quarterly dividends (₹1.25/share announced for Q1) & continued leadership hires across key verticals reflect long-term strategic focus. At the consolidated level, we model EBITDA margin of 6.5%/7.3% for FY26E/FY27E, as we expect a gradual margin recovery.
- Al-first strategy and platform-led differentiation offer long-term leverage:
   Sonata is actively scaling its Al-first, modernization-led delivery model, targeting 20% of revenue from Al-enabled services over the next three years. Proprietary platforms like Harmoni.Al, IntellQA, & AgentBridge position Sonata among the few mid-tier firms offering enterprise-grade GenAl solutions. With 95% of its workforce trained in Al \$ a US\$46 mn pipeline in place, the company is well-placed to drive productivity-led growth and differentiation.

### **Rating and Target Price**

• Given the increasing traction in platform-led & Al-driven offerings, we expect gradual revenue and margin recovery over FY26 & FY27. Thus, we maintain our BUY rating, albeit at a reduced multiple of 21x P/E on FY27E EPS (vs 22x earlier), with lower target price of ₹440 (vs ₹580 earlier).

Result Update

### Performance highlights and outlook

- Revenue Performance: International IT services (IITS) revenue in Q1 stood at US\$ 81.8 mn, down 0.9% QoQ/ 2.4% YoY in CC terms. This was mainly driven by the ramp-up of a large USD 73mn TMT deal, strong traction in healthcare and BFSI, and rising AI-led deal momentum. However, the company is facing headwinds from softness in the retail and manufacturing sectors due to tariff-related uncertainty, discretionary budget cuts at two large clients (one BFSI and one high-tech), and potential risks from change in Microsoft strategy (prioritizing direct sales to large enterprise clients). Domestic Products and Services reported revenues of US\$ 265.8 mn, up 20% QoQ. At the company level for the quarter, the revenue stood at US\$ 346.5 mn, up 15% QoQ.
- **Geography performance**: Geography wise on a QoQ basis, the growth was led by Europe (17% of the mix), up 44.4%, while, RoW (9% of the mix) and USA (74% of the mix) declined by 23.5% and 11.3%.
- Margin performance: IITS EBITDA margin at 16.6%, was up ~10 bps QoQ.
   Domestic products & services margin came at 1.9%, down 100 bps QoQ.
   At the company level EBITDA margin came at 5.4%, down ~120 bps QoQ.
- Segment performance: Segment wise on a QoQ basis, Healthcare (14% of the mix) and TMT (32% of the mix) grew by 17% and 15%. While, Emerging (4% of the mix), BFSI (20% of the mix) and Retail (30% of the mix) declined by 33%, 12.5% and 3%.
  - BFSI & HLS: Together, the BFSI and HLS segments now form over 30% of total revenues, a sharp increase from 13% three years ago. The company anticipates these verticals could scale up to US\$250 mn over the next 2–5 years. Despite budgetary constraints at a key client, BFSI showed steady progress, while Healthcare stayed resilient, benefiting from AI-led solutions across pharma and health tech sub-verticals.
  - Retail and manufacturing: Sonata continues to face challenges in its retail and manufacturing segments due to macro uncertainties, including tariff-related concerns
- TCV, Deal Wins and pipeline: Sonata bagged 3 large deals during the
  quarter—one with a BFSI client to modernize a cloud lending platform,
  another with a TMT firm that expanded its existing partnership, and a
  second BFSI client focused on modernizing its data and application
  landscape. The company's GenAI pipeline has reached US\$46 mn across
  over 100 clients, and management reiterated its ambition to drive 20%
  of revenue from AI-enabled services over the next 3 years. Additionally,
  its Microsoft Fabric-related pipeline now stands at US\$39 mn.
- Headcount/Attrition: Total employees for the IITS business stood at 6,393
  employees, a net increase of 24 employees QoQ. Attrition for the quarter
  stood at 16%, up 200 bps QoQ. Moreover, 97% of the company's workforce
  is GenAl trained.
- Wage hike: The company is rolling out its annual salary revisions in 2 stages—effective August 1 for junior and mid-level employees, and from October 1 for senior leadership. Management stated that the impact on margins will remain in line with past wage increment cycles.
- GenAl: Sonata is delivering its Al strategy across three core areas—
  engineering, industry-specific solutions, and internal efficiency. Key
  initiatives include embedding Al via Harmoni.Al and IntellQA, launching
  enterprise-grade offerings like AgentBridge, and deploying internal tools
  such as Sonata GPT and productivity bots.
- Guidance/Aspiration: While refraining from issuing numerical revenue guidance, management reiterated its aspiration to maintain top-quartile

growth among mid-tier peers over the long term. Sonata remains focused on improving IITS margins and aims to reach  $\sim$ 20% EBITDA by FY26-end.

- **Dividend:** The company declared an interim dividend of ₹1.25 per share.
- Strengthening Microsoft-led momentum: Sonata continues to benefit from its strong partnership with Microsoft, contributing over 50% of revenues. The company is expanding its Microsoft-focused offerings, especially in areas like Azure, Dynamics 365, and Power Platform, which remain in demand despite macro softness. With 7 Microsoft specializations and strong execution capabilities, Sonata is well-positioned to capture digital transformation spends from enterprise clients globally. This strategic focus provides resilience and consistent growth visibility in its core ISV and enterprise segments.

### **RATING RATIONALE**

ICICI Direct endeavours to provide objective opinions and recommendations. ICICI Direct assigns ratings to its stocks according to their notional target price vs. current market price and then categorizes them as Buy, Hold, Reduce and Sell. The performance horizon is two years unless specified and the notional target price is defined as the analysts' valuation for a stock

Buy: >15%

Hold: -5% to 15%;

Reduce: -15% to -5%;

Sell: <-15%

ICICI Securities is one of the leading merchant bankers/ underwriters of securities and participate in virtually all securities trading markets in India. We and our associates might have investment banking and other business relationship with a significant percentage of companies covered by our Investment Research Department. ICICI Securities and its analysts, persons reporting to analysts and their relatives are generally prohibited from maintaining a financial interest in the securities or derivatives of any companies that the analysts cover.

Recommendation in reports based on technical and derivative analysis centre on studying charts of a stock's price movement, outstanding positions, trading volume etc as opposed to focusing on a company's fundamentals and, as such, may not match with the recommendation in fundamental reports. Investors may visit icicidirect.com to view the Fundamental and Technical Research Reports.

Our proprietary trading and investment businesses may make investment decisions that are inconsistent with the recommendations expressed herein.

ICICI Securities Limited has two independent equity research groups: Institutional Research and Retail Research. This report has been prepared by the Retail Research. The views and opinions expressed in this document may or may not match or may be contrary with the views, estimates, rating, and target price of the Institutional Research.

The information and opinions in this report have been prepared by ICICI Securities and are subject to change without any notice. The report and information contained herein is strictly confidential and meant solely for the selected recipient and may not be altered in any way, transmitted to, copied or distributed, in part or in whole, to any other person or to the media or reproduced in any form, without prior written consent of ICICI Securities. While we would endeavour to update the information herein on a reasonable basis, ICICI Securities is under no obligation to update or keep the information current. Also, there may be regulatory, compliance or other reasons that may prevent ICICI Securities from doing so. Non-rated securities indicate that rating on a particular security has been suspended temporarily and such suspension is in compliance with applicable regulations and/or ICICI Securities policies, in circumstances where ICICI Securities might be acting in an advisory capacity to this company, or in certain other circumstances.

This report is based on information obtained from public sources and sources believed to be reliable, but no independent verification has been made nor is its accuracy or completeness guaranteed. This report and information herein is solely for informational purpose and shall not be used or considered as an offer document or solicitation of offer to buy or sell or subscribe for securities or other financial instruments. Though disseminated to all the customers simultaneously, not all customers may receive this report at the same time. ICICI Securities will not treat receiving this report. Nothing in this report constitutes investment, legal, accounting and tax advice or a representation that any investment or strategy is suitable or appropriate to your specific circumstances. The securities discussed and opinions expressed in this report may not be suitable for all investors, who must make their own investment decisions, based on their own investment objectives, financial positions and needs of specific recipient. This may not be taken in substitution for the exercise of independent judgment by any recipient. The recipient should independently evaluate the investment risks. The value and return on investment may vary because of changes in interest rates, foreign exchange rates or any other reason. ICICI Securities accepts no liabilities whatsoever for any loss or damage of any kind arising out of the use of this report. Past performance is not necessarily a guide to future performance. Investors are advised to see Risk Disclosure Document to understand the risks associated before investing in the securities markets. Actual results may differ materially from those set forth in projections. Forward-looking statements are not predictions and may be subject to change without notice.

ICICI Securities or its associates might have managed or co-managed public offering of securities for the subject company or might have been mandated by the subject company for any other assignment in the past twelve months.

ICICI Securities or its associates might have received any compensation from the companies mentioned in the report during the period preceding twelve months from the date of this report for services in respect of managing or co-managing public offerings, corporate finance, investment banking or merchant banking, brokerage services or other advisory service in a merger or specific transaction.

ICICI Securities or its associates might have received any compensation for products or services other than investment banking or merchant banking or brokerage services from the companies mentioned in the report in the past twelve months.

ICICI Securities encourages independence in research report preparation and strives to minimize conflict in preparation of research report. ICICI Securities or its associates or its analysts did not receive any compensation or other benefits from the companies mentioned in the report or third party in connection with preparation of the research report. Accordingly, neither ICICI Securities nor Research Analysts and their relatives have any material conflict of interest at the time of publication of this report.

Compensation of our Research Analysts is not based on any specific merchant banking, investment banking or brokerage service transactions.

ICICI Securities or its subsidiaries collectively or Research Analysts or their relatives do not own 1% or more of the equity securities of the Company mentioned in the report as of the last day of the month preceding the publication of the research report.

Since associates of ICICI Securities and ICICI Securities as a entity are engaged in various financial service businesses, they might have financial interests or actual/beneficial ownership of one percent or more or other material conflict of interest various companies including the subject company/companies mentioned in this report.

ICICI Securities may have issued other reports that are inconsistent with and reach different conclusion from the information presented in this report.

ICICI Securities Limited has not used any Artificial Intelligence tools for preparation of this Research Report.
