## Recent event & key risks

- Reported steady Q2FY23 results
- Key Risk: (i) Slower than expected uptick in sales volume amid exciting product launches, (ii) Lower than anticipated margin recovery

### **Research Analyst**

# Steady performance amid fundamental levers to grow

**About the stock:** Eicher Motors (EML) is the market leader in the >250 cc premium motorcycle segment (market share  $\sim85\%+$ ) through its aspirational models under the Royal Enfield (RE) brand, such as Bullet, Classic, Interceptor among others.

- Via its JV with Volvo i.e., VECV (EML has 54.4% stake), the company has a presence in the CV space as well (6.6% FY22 market share)
- Strong net cash positive b/s with healthy return ratios metrics

Q2FY23 Results: Eicher posted a steady performance in Q2FY23.

- Consolidated revenues were at ₹ 3,519 crore, up 3.6% QoQ
- Reported EBITDA margins came in at 23.3%, down 112 bps QoQ
- Consequent consolidated PAT was at ₹ 657 crore, up 7.6% QoQ

What should investors do? EML price has grown ~4% CAGR over the last five years (from ₹ 3,055 in November 2017), in line with the broader Nifty Auto index.

We retain **BUY** amid broadening of customer base with launch of affordable offering in premium segment; strong new product launch pipeline, gross margin expansion on the anvil (Q3FY23) & CV cyclical recovery underway

**Target Price and Valuation:** We value EML at ₹ 4,310 on an SOTP basis; assigning 34x PE to RE business & 30x PE to VECV business on FY24E numbers.

## Key triggers for future price performance:

- Dominant position in >250 cc segment and likely beneficiary of premiumisation trend amid healthy response to Hunter 350 (lucrative price point offering by RE at ₹ 1.5 lakh/unit, ex-showroom) & increasing global presence, we expect RE volumes to grow at CAGR of 27% over FY22-24E
- With CV cyclical upswing domestically, CV volumes at VECV are expected to grow at 25% CAGR by FY22-24E amid focus on healthy profitability
- Eyeing increasing global market presence (in mid-weight category) with new product launched in >350 cc segment like "Super Meteor 650"
- With levers in place, margins are seen at 26.1% by FY24E

Alternate Stock Idea: In our auto OEM coverage, we also like M&M.

- Focused on prudent capital allocation, UV differentiation & EV proactiveness
- BUY with target price of ₹ 1,590

# Key takeaways of recent quarter & conference call highlights

### Q2FY23 Results:

- Consolidated revenues for Q2FY23 were at ₹ 3,519 crore, up 3.6% QoQ.
   ASPs at Royal Enfield (RE) were down 5.7% QoQ to ~₹ 1.61 lakh/unit. RE sales volumes were at ~2.08 lakh units, up 11% QoQ
- EBITDA for the quarter was at ₹ 822 crore with margins at 23.3%, down 112 bps QoQ. The company reported ~154 bps gross margin decline (amid adverse product mix) and was partially offset by operating leverage gains (primarily savings realised in employee costs as a percentage of sales, down 40 bps)
- Consolidated PAT was at ₹ 657 crore, up 7.6% QoQ. The company's share of profit from VECV JV was at ₹ 44.1 crore

## Q2FY23 Earnings Conference Call highlights

- The company achieved highest ever revenue and EBITDA for a quarter amid healthy festive season and continued on its path to become global affordable brand in mid-range segment
- Eicher continues to dominate >350 cc space with >85% market share and within >125 cc (even though it is not present in 125 cc or 150 cc segments) it increased market share from 26% in H1FY22 to ~30.2% in H1FY23
- The company's' recent launch Hunter 350 is witnessing a good response from consumers and is witnessing increasing trend in enquiries. Further the company achieved the milestone of producing 50,000 units of Hunter 350.
   Further, the company recently unveiled Super Meteor 650 at EICMA 2022 and is already getting queries about bookings
- The company during September-October 2022 witnessed highest ever festive retails for the quarter in both domestic as well as foreign markets
- The management said the company was leading mid weight segment with ~10% global market share and ranking No. 1 in UK and among top three in the European region. It has ~7%, 9%, 10% market share in America, APAC, EMEA regions respectively
- On the domestic CV industry, the management guided that >3.5 ton trucks grew 68% YoY in H1FY23 and in October 2022 grew ~15% (despite higher base). However, sales are still below FY18-19 peak
- VECV bus market share was at ~24-26% in H1FY23, LD trucks market share was at 28-30%. Also, the company was No. 1 in dealer profitability according to study conducted by FADA
- The management said first time buyers were going up post launch of Hunter 350 from 13% earlier to 18.2% now
- The management added that Hunter 350 is bringing in additional volumes and not cannibalising sales of the existing portfolio

The management said its existing product line is ready for OBD phase 2A norms and would require minor modification with minimal cost impact, whereas for Phase 2B norms, which are supposed to come in effect from April 2025 it is working upon the same

The management guided that domestic truck demand would remain healthy amid replacement demand picking up, MoM dip in sales is temporary & seasonal, whereas industry is well positioned for growth over two to three years

The management expects a decline in commodity costs to start benefiting from Q3FY23 onwards

The company took a price hike of  $\sim ₹ 3,000$  in Hunter 350 model starting November 2022. Also, customers are preferring higher priced variant within Hunter series

Source: Company, ICICI Direct Research; Note – Bajaj Auto volumes above are for its 2-W business

We ascribe BUY rating to Eicher Motors amid launch of affordable offering in the premium motorcycle segment and assign HOLD rating to other incumbent 2-W auto OEMs in our coverage. We await firm volume growth (monthly numbers) as well as more meaningful action from them on EV front before turning decisively positive.

# **RATING RATIONALE**

ICICI Direct endeavours to provide objective opinions and recommendations. ICICI Direct assigns ratings to its stocks according -to their notional target price vs. current market price and then categorizes them as Buy, Hold, Reduce and Sell. The performance horizon is two years unless specified and the notional target price is defined as the analysts' valuation for a stock

Buy: >15%

Hold: -5% to 15%;

Reduce: -15% to -5%;

Sell: <-15%

ICICI Securities is one of the leading merchant bankers/ underwriters of securities and participate in virtually all securities trading markets in India. We and our associates might have investment banking and other business relationship with a significant percentage of companies covered by our Investment Research Department. ICICI Securities and its analysts, persons reporting to analysts and their relatives are generally prohibited from maintaining a financial interest in the securities or derivatives of any companies that the analysts cover.

Recommendation in reports based on technical and derivative analysis centre on studying charts of a stock's price movement, outstanding positions, trading volume etc as opposed to focusing on a company's fundamentals and, as such, may not match with the recommendation in fundamental reports. Investors may visit icicidirect.com to view the Fundamental and Technical Research Reports.

Our proprietary trading and investment businesses may make investment decisions that are inconsistent with the recommendations expressed herein.

ICICI Securities Limited has two independent equity research groups: Institutional Research and Retail Research. This report has been prepared by the Retail Research. The views and opinions expressed in this document may or may not match or may be contrary with the views, estimates, rating, and target price of the Institutional Research.

The information and opinions in this report have been prepared by ICICI Securities and are subject to change without any notice. The report and information contained herein is strictly confidential and meant solely for the selected recipient and may not be altered in any way, transmitted to, copied or distributed, in part or in whole, to any other person or to the media or reproduced in any form, without prior written consent of ICICI Securities. While we would endeavour to update the information herein on a reasonable basis, ICICI Securities is under no obligation to update or keep the information current. Also, there may be regulatory, compliance or other reasons that may prevent ICICI Securities from doing so. Non-rated securities indicate that rating on a particular security has been suspended temporarily and such suspension is in compliance with applicable regulations and/or ICICI Securities policies, in circumstances where ICICI Securities might be acting in an advisory capacity to this company, or in certain other circumstances.

This report is based on information obtained from public sources and sources believed to be reliable, but no independent verification has been made nor is its accuracy or completeness guaranteed. This report and information herein is solely for informational purpose and shall not be used or considered as an offer document or solicitation of offer to buy or sell or subscribe for securities or other financial instruments. Though disseminated to all the customers simultaneously, not all customers may receive this report at the same time. ICICI Securities will not treat recipients as customers by virtue of their receiving this report. Nothing in this report constitutes investment, legal, accounting and tax advice or a representation that any investment or strategy is suitable or appropriate to your specific circumstances. The securities discussed and opinions expressed in this report may not be suitable for all investors, who must make their own investment decisions, based on their own investment objectives, financial positions and needs of specific recipient. This may not be taken in substitution for the exercise of independent judgment by any recipient. The recipient should independently evaluate the investment risks. The value and return on investment may vary because of changes in interest rates, foreign exchange rates or any other reason. ICICI Securities accepts no liabilities whatsoever for any loss or damage of any kind arising out of the use of this report. Past performance is not necessarily a guide to future performance. Investors are advised to see Risk Disclosure Document to understand the risks associated before investing in the securities markets. Actual results may differ materially from those set forth in projections. Forward-looking statements are not predictions and may be subject to change without notice.

ICICI Securities or its associates might have managed or co-managed public offering of securities for the subject company or might have been mandated by the subject company for any other assignment in the past twelve months.

ICICI Securities or its associates might have received any compensation from the companies mentioned in the report during the period preceding twelve months from the date of this report for services in respect of managing or comanaging public offerings, corporate finance, investment banking or merchant banking, brokerage services or other advisory service in a merger or specific transaction.
