Well placed to capitalise on global PV recovery...

About the stock: Motherson Sumi (MSS) primarily serves global PV industry with wiring harnesses, vision systems (mirrors) & plastic body parts as key product lines.

- History of successful turnarounds in acquisitions and inorganic-led growth
- SMRPBV order book was at €15.6 billion as of FY21

Q1FY22 Results: The company posted muted Q1FY22 results.

- Consolidated net sales dipped 6.6% QoQ to ₹ 17,271 crore

We retain **BUY** rating on global PV premiumisation play, EV neutral products

Target Price and Valuation: We value MSS at 30x P/E on FY23E basis for a revised target price of ₹ 270 (earlier ₹ 300).

Key triggers for future price performance:

- Backed by healthy expected revival for worldwide OEM client volumes and strong orderbook, we expect 12.6% FY21-23E net sales CAGR
- Minimal EV risk, with share of EV within orderbook at 25% (FY21)
- Focus on higher content per vehicle to gain further traction
- Margins seen rising to 10.8% by FY23E on the back of higher capacity utilisation at greenfield plants and general operating leverage benefits
- Well poised to post ~20% RoCE by FY23E

Alternate Stock Idea: Besides MSS, in our ancillary coverage we like Apollo Tyres.

- India CV revival beneficiary focused on debt reduction, higher return ratios
- BUY with a target price of ₹ 275

We like MSS as it provides a premiumisation play in the global PV space, with EV neutral product profile (wiring harnesses, mirrors, plastic parts) leaving it largely immune to the electrification mega change. Backed by higher utilisation levels, operating leverage gains and controlled capex, MSS is well poised to touch $\sim\!20\%$ consolidated RoCE by FY23E. Longer term focus on profitable growth along with healthy diversification (Vision 2025) provides directional comfort.
